

Great Neck South High School

Student iPad Acceptable Use Policy and Authorization Form Updated 9/2015

Please read the following and indicate you understand this policy by clicking "I agree" in the survey.

- All school-issued iPads have filtered Internet access while on the school network. When the school-issued iPad is used outside of school, including at home, Internet access is usually unfiltered and dependent on the subscriber.
- I may install content (apps, books, games, music, videos, etc.) on the school-issued iPad as long as the content is educational, appropriate, and complies with copyright and all other applicable laws.
- I may install iOS updates only **upon notification** from school personnel. These updates should be done outside of the school day.
- I may NOT turn off the iPad's location services or the Find My iPad setting. Students who turn off such settings make it significantly less likely that a lost or stolen iPad will be recovered.
- I am responsible for 50% of the repair or replacement cost for the FIRST instance of accidental damage or documented theft or for 100% of the replacement cost for loss or undocumented theft. Refer to District-Issued Portable Electronic Devices Board Policy #8332.
- I should use my school-issued Google email account via the Web (the mail app will not work in school). Personal email accounts cannot be accessed in school.
- I must create and remain logged in using a unique Apple ID using their school-issued email address. This account will be used to sync the iPad with the district's management system in order for students to receive "pushed" apps and to download free educational apps on their own.
- Audio and video recordings or photographs are sanctioned for school activities and projects with the permission of the supervising teacher and the subjects of the recordings or photographs. I may save these files locally and/or online but must follow school and district policy.

- I shall respect copyright laws and licensing agreements pertaining to materials stored on a school-issued iPad.
- In the event that a school-issued iPad becomes inoperable, a spare iPad may be loaned, if available, for temporary use while the inoperable iPad is repaired or replaced. If your parents wish to opt-out of this option they should inform the school in writing.
- I am responsible for taking proper care of the iPad and its accessories. Any damage, loss, or theft must be reported immediately. Expenses incurred to repair or replace an iPad assigned to me due to accidental damage or documented theft will be equally shared by the District and my Parent/Guardian. Costs associated with purposeful or repeated damage, loss or undocumented theft will be completely borne by my Parent/Guardian.
- Cost to repair an iPad is approximately \$144 (\$72 if 50% responsible) iPad Air 16GB (\$367) or iPad Air 32GB (\$415) Case (\$30) USB Power Adapter (\$19) Apple USB cable (\$19) Logitech Wired Keyboard (\$46)
- All exact iPad accessories that are borrowed by me must be returned, including USB Power Adapters and USB Cables (both have school barcodes affixed). Cheaper replacement adapters and cables are not acceptable substitutions. Replacement costs for accessories are listed above and may also include a Stylus Targus (\$12) and/or Logitech Wired Keyboard (\$56).
